Subject: FW: Important: Become a part of the annual International Construction Conference at Marriot Copenhagen
Attachments: 2019-11-01-503-1.pdf

Dear Ambassador and trade officer of BOSNIA AND HERZEGOVINA,

Please receive our invitation to the Building Network Construction Conference 2019 which I hope you will forward to relevant colleagues, partner organisations and companies with interest in expanding their business within the Scandinavian construction sector.

During the next couple of weeks we will make the complete programme that will take place from approximately 8.00 – 18.00 at Copenhagen Marriott Hotel on 19. November and the preliminary list of participants available at the conference site. In the week leading up to the event we will send out more information to all participants on how to register their interest in speed dating with the keynote speakers and request to connect with other participants.

As a new addition this year, we're excited to announce a pre-event workshop and welcome reception that will take place at 17.00-19.00 on the evening before the conference at BLOXHUB, the Nordic hub for sustainable urbanisation. Here you'll have the opportunity to learn more about a selection of future commercial and high-rise buildings, urban development, public buildings and infrastructure projects in Denmark. In addition to also getting tips and tricks on how to expand your business in Scandinavia, there will be a guided tour of BLOXHUB, a co-working community in the heart of Copenhagen that includes an international network of businesses, organisations and researchers within urbanisation who are co-creating on sustainable urban development, architecture, design and new ideas.

14 keynote speakers, 14 exhibitors and more than 100 participants have already registered to the conference. In both 2017 and 2018 the remaining tickets were sold out a couple of weeks before the event, thus we recommend you follow-up on any potential companies to register their interests soon. Before they complete their reservation, please guide them to the instructions on how to receive the discount on their ticket or exhibition half way down this mail.

Feel free to share some of our posts about the conference with your professional network on LinkedIn.

Do you have any questions, please don't hesitate to contact me by phone or mail.

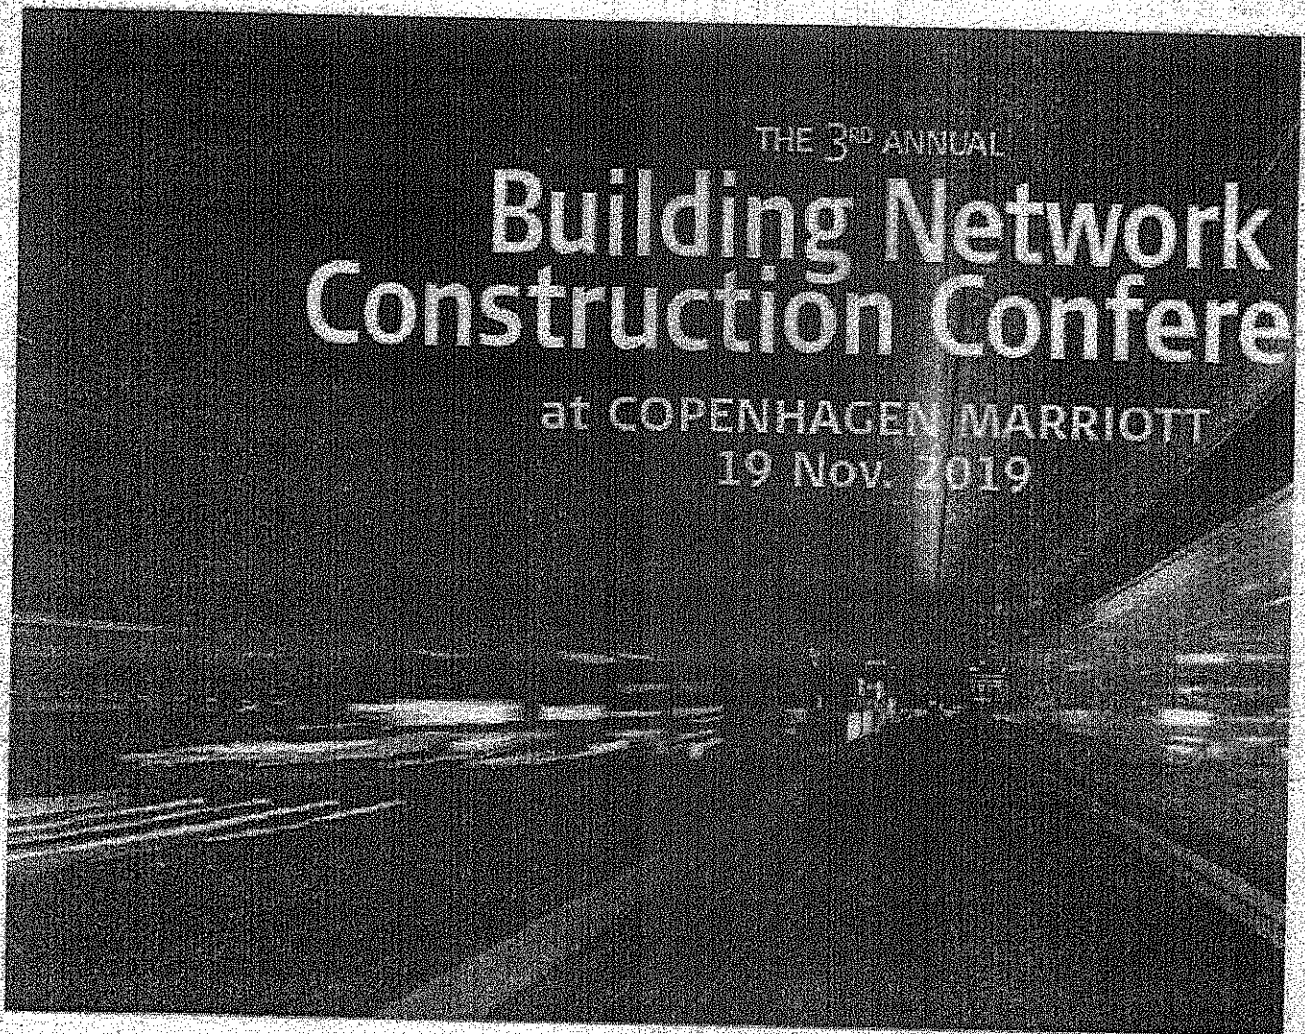

Yours sincerely

MVP BiH DMS, 06-05-5-35485/19, 01.11.2019
