## **17. Matters to be noted**

- (1) Grant money is paid to the implementing organization only after the implementing organization has completed the project, paid the project expenses, and submitted a project completion report to the Association, which the Association will examine to finally determine the amount of the grant money. This means that the implementing organization is required to temporarily pay the project expenses itself. It should be also noted that the amount of the grant money paid to the implementing organization may be less than the originally agreed amount, because the amount is calculated based on the actual expenses the implementing organization has paid for the project.
- (2) In the event that there are any surplus funds, reserved, or carried-over money at the time of the settlement of accounts for the project, the Grant may be reduced or may not be paid at all. This applies to the case of any payment to a superior body of the project implementing organization.
- (3) You can download application forms from the Association's official website. You may opt to produce the forms on your own in the prescribed formats.  
(<http://www.osaka21.or.jp/jecfund/english/information/>)
- (4) The Association will not be involved in the project or debt guarantee in any manner.
- (5) Application forms are used for the purpose of screening, and should be prepared with the utmost care so that all necessary information is correctly provided. You cannot change any of the information contained in the forms or replace the forms with revised ones once you have submitted the forms.
- (6) After you have completed your application, please notify the Association of any changes, such as the cancellation of your project or a significant impact on your project due to considerable changes in the domestic situation in your country.
